Engagement & Sponsorship Opportunities 2026

Over the course of the last year, new administrations in Germany and the U.S. have reshaped the landscape for transatlantic cooperation. At the same time, geopolitical tensions are contributing to a fragmentation of global supply chains, while rapid advancements in AI and other technologies challenge and disrupt traditional industries on both sides of the Atlantic. To navigate this evolving landscape, political and business leaders must work together to build a resilient, future-oriented transatlantic agenda. **Our signature and regional events in 2026 will once again offer a diverse set of engagement and sponsorship opportunities, offering platforms for dialogue and exchange on these and other topics.**

AmCham Germany encourages its members to increase their organization's visibility within the German American business community and support AmCham Germany's activities through sponsorships, which are exclusively available for AmCham Germany members in the following projects:
