Packing “Made in Thuringia”

Export-Pack Thüringen GmbH & Co. KG is your reliable partner for seaworthy packing, crating, different kinds of conservation methods, and handling of project cargo. Serving all kinds of different industries, our professional packing service ensures damage-free transportation of industrial products by truck, sea freight and air freight.

The packing of industrial goods such as machines, project cargo and other industrial parts requires customized packing solutions tailored to suit your individual needs. Export Pack Thüringen caters specifically to the needs of each shipment and can easily have experts on-site to discuss various options and go through all the relevant details with customers due to our convenient location in Arnstadt (right in the center of Thuringia). Additionally, we coordinate with you about when and where we pack. This way, your regular workflows are only disturbed minimally and the dispatch of your goods is guaranteed to be carried out on schedule.

Consulting at an early stage of your project and the exchange of professional knowledge between engineers is a good start to a successful collaboration. Please do not hesitate to contact Dipl.-Ing. Barbara Hertwig, technical expert and Managing Director, to start designing the ideal packing solution for your export goods.

25 years of experience enable us to find a secure and economical solution for your high-value products, always combined with a service that works for you. With our very own packing facilities, marshalling yard, and professional staff, we offer plenty of opportunities for cooperation for customers from different manufacturing industries.

ABOUT THE COMPANY

We are a service company providing customized seaworthy packing. Our professionally-trained and experienced staff are also available to work directly on your premises, if required.
