

Your Partner for International Business

Western Union Business Solutions works around the clock in all time zones to help organizations send and receive payments in over 130 currencies through a global network that spans 200 countries and territories. Through its powerful online platforms, WUBS offers an efficient way to manage international payments and cash flow on a global scale. Along with a skilled team of financial specialists, the company also provides the support, market insight, and risk management consultation your business needs to grow profits today.

Western Union Business Solutions works with companies of all shapes and sizes, from SMEs to large corporates, supporting exporters and importers from various industries around the world. It also provides various solutions for NGOs, Legal firms, Financial and Education Institutions.

With a strong history of innovation and a commitment to compliance, Western Union Business Solutions gives its clients an advantage so they can focus on expanding business globally.

Its intuitive online tools, including the innovative and powerful WU® EDGE platform, are designed to help solve your international transaction challenges:

- Visibility into cash flows and currency exposures
- Simulate market volatility to identify potential future costs
- Save time and money on global payments
- Connect buyers and sellers online

As your dedicated partner, Western Union Business Solutions will work closely with you to help your business thrive on an international scale. More than 100,000 businesses trust WUBS to provide a set of capabilities designed to help their business succeed in today's competitive climate. Whether you need foreign exchange, risk management, cash management services or a global payment gateway WUBS has the solutions.

ABOUT THE COMPANY

Western Union, Fortune 500 company, pioneered the idea of moving money around the world and has been connecting people globally for more than a century. Western Union Business Solutions is a division of the Western Union Company and as one of the world's leading providers of cross-border business payments, it transforms how companies expand globally through one of the largest and most diverse payment networks in the world.
