

## Driving a Better Way

**C**hargePoint brings electric vehicle (EV) charging to more people and places than ever before with the world's leading and most open EV charging network. ChargePoint is the only company in the category that designs, develops, and manufactures solutions for every charging scenario while supporting all of the technology that powers the network, from charging station hardware to cloud services, a mobile app, and more. As the leader in EV charging, ChargePoint builds bridges across the mobility ecosystem bringing together multiple stakeholders, from car manufacturers to businesses, paving the way for widespread EV adoption. ChargePoint offers a comprehensive suite of EV charging solutions helping drivers make the transition to electric while enabling businesses and potential site owners to deploy charging.

### Expertly Engineered Hardware

ChargePoint's class-leading EV charging solutions use cutting-edge technology that's rigorously tested to be safe and reliable. ChargePoint chargers are built to withstand the elements, offering a premium experience for drivers, unmatched in the industry.

### Real-Time Cloud Services

With the broadest and deepest feature set in the industry, ChargePoint cloud plans make it simple for EV charging station owners to operate and customize charging stations to meet their specific requirements.

- Intuitive graphical dashboard simplifies station management
- Advanced energy management features reduce station installation costs
- Comprehensive analytics support planning and management reporting

### Unmatched Support

ChargePoint offers world-class service and support to meet the needs of any site owner at every stage of the EV charging experience. From site planning to installation and set-up, to ongoing care.

- Proactive 24/7 station monitoring
- ChargePoint co-ordinates parts and on-site labor for repairs within one business day
- 98% annual uptime guarantee with non-performance penalty

### ABOUT THE COMPANY

ChargePoint is the leading electric vehicle (EV) charging network in the world, with charging solutions in every category EV drivers charge, at home, work, around town and on the road. With more than 52,000 independently owned public and semi-public charging spots and thousands of customers (businesses, cities, agencies and service providers), ChargePoint is the only charging technology company on the market that designs, develops and manufactures hardware and software solutions across every use case.
